

A Sampling of our SOLID & ENGINEERED Wood Flooring

Antique Heartpine

the predictable unique beauty of vertical grain shown here.

Antique Maple

One-of-a-kind. Former cotton mill wear surface.

Rustic Oak

Saw Cut & Sanding to taste. Several species available.

Engineered HeartPine

Concrete was never covered so gracefully. (See our website www.wholeloglumber.com/collectingwoodforflooring to find out why.)

Our products represent a finite and diminishing natural resource. Building with them today preserves the beauty of the past and projects this now renewed-resource into the future. Your flooring, stairs, walls & beams will be enjoyed & appreciated for years to come, and not a single living tree has been sacrificed.
